## 6 EXECUTIVE SUMMARY

The executive summary of the mid-year budget and performance assessment must, in addition to the information in executive summary of the monthly budget statement as well as on the quarterly report on the implementation of the budget and the financial affairs for the municipality provide a summary of the impact of the national adjustments budget and the relevant provincial adjustments budget.

#### 6.1 Introduction

The Mid-Year Review has been prepared in terms of the Municipal Budget and Reporting Regulations (2009) in the prescribed format.

#### 6.2 Operating Revenue

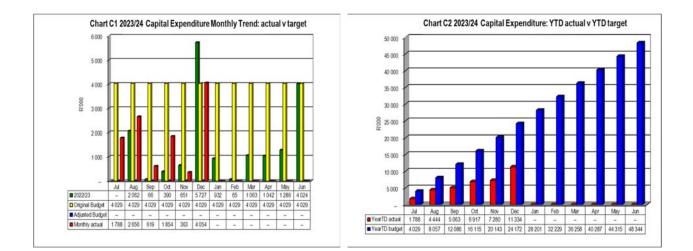

The Municipality generated 77.3% or R 29.887 million of the quarterly budgeted income of R 38.661 million, which is less than the budgeted amounts. This amount includes the operational allowances to date.

#### 6.3 Operating Expenditure

Operating expenses of R 23,945 million for the quarter do not include part of the depreciation charges and exclude the annual calculation for provisions. The total amount for the year-to-date portion of provisions is R 2 404 million. This will effectively bring the total expenditure year- to-date to R 51 088 million. The expenditure to date is less than the budget year-to-date amount. This means that the Municipality spent 4.73% less.

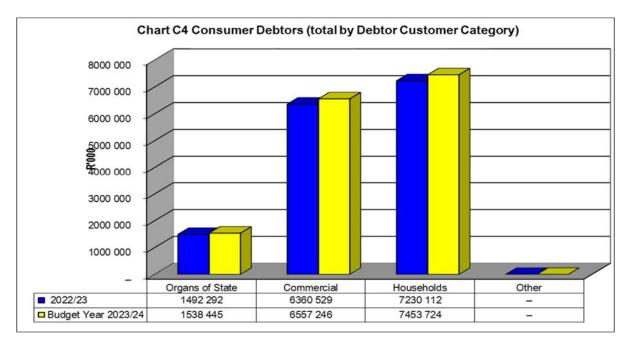

#### 6.4 Capital Expenditure

The Municipality has so far spent R 11,334 million of the externally funded capital budget. An amount of R 29.027 million in capital grants (MIG and WSIG) has already been received. So far, 23.44% of the year's capital budget has already been spent.

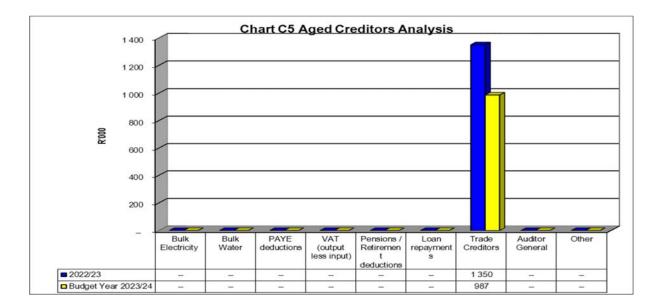

#### 6.5 Debtors

The outstanding debtors of the Municipality amount to R 14,636 million at the end of the second quarter.

#### 6.6 Creditors

Total outstanding operating creditors amount to R 1,091 at the end of the second quarter. All outstanding amounts are within the 30 days outstanding categories that comply with Section 65 of the MFMA. Occasionally a supplier issues invoices more than 30 days after the date of the invoice date for payment, but in most cases the payments are made upon presentation of the invoices.

## 7 SERVICE DELIVERY PERFORMANCE ANALYSIS

Performance management is prescribed by Chapter 6 of the Municipal Systems Act (MSA), Act 32 of 2000 and the Municipal Planning and Performance Management Regulations, 796 of August 2001. Section 7(1) of the regulation states that "A Municipality's Performance Management System entails a framework that describes and represents how the municipality's cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organized and managed, including determining the responsibilities of the different role players." This framework, inter alia, reflects the linkage between the Integrated Development Plan (IDP), Budget, Service Delivery and Budget Implementation Plan (SDBIP) and individual and service provider performance.

Laingsburg Municipality does have an approved Performance Management Framework, Policy and Rewards Incentive Policy in place which are currently under review.

#### 7.1 Implementation of the Performance Management

The 2022/2027 Year 1 Review was compiled and approved by Council on 31 May 2023. Performance is evaluated by means of a municipal scorecard (Top Layer (TL) Service Delivery and Budget Implementation Plan (SDBIP) at organizational level and through the Departmental SDBIP at Departmental level.

The SDBIP is a plan that converts the IDP and Budget into measurable criteria on how, where and when the strategies, objectives and normal business process of the Municipality is implemented. It also allocates responsibilities to Departments to deliver services in terms of the IDP and Budget.

The TL SDBIP was prepared and approved by the Executive Mayor on 14 June 2023.

#### 7.2 Performance Monitoring

The SDBIP is loaded on an electronic web-based system (after approval). The web-based system sent automated e-mails to the users of the system as a reminder to all staff responsible for updating their actual performance against Key Performance Indicator (KPI) Targets for the previous month's performance. The actual results against monthly targets set, are discussed in monthly Executive Management Team (EMT) meetings to determine early warning indicators and discuss corrective measures if needed.

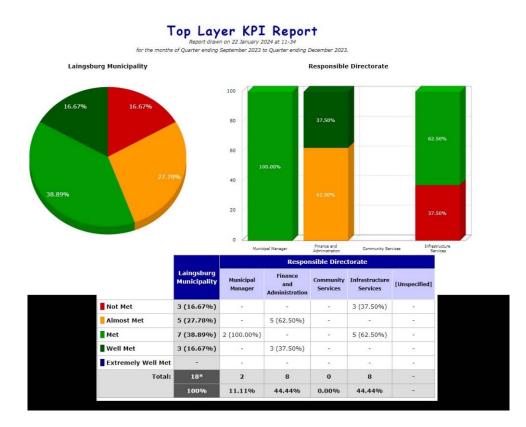

Category	Colour	Description
